GENERAL AND REVENUE SECRETARIAT.

Serial Nos. Eight

Part B for January, 1939.

SUBJECT.

Improving the Eye Department of the K.R. Hospital, Mysore.

Al. 10) No. G. 6581-4 dt 6.1.39

WD 0295—GPB—22,500—18-8-37

To, The Sr. Surgeon,
" Durbar Surgeon & M.O., K.R. Hospital,
" Comptroller, Thr. Fl. Dept.,
" Registrar, Mysore University

Passes orders for —.

8.1.39

Certain suggestions made by Mr S. R. Subba Rao Surgeon for improvements of the Eye Hospital

General and Revenue Secretariat — Med File No. 204 of 1937. [App. F. III—2

Serial No. 1

From the Dumbar Surgeon and Medical Officer – Kasturbai Rajendra Hospital. Mysore

Letter No 2644/4 dated 19th Feb 1938

Forwards the note of Mr S. R. Subba Rao Surgeon for effecting certain improvements in the Eye Department of the Hospital & ~~also~~ recommends their being given effect to.

The suggestions made are

1) The opportunities given in the form of staff and Equipment are inadequate

2) A separate medical man trained in Pathological work is essential as noted below, said to be

3) A staff, ~~consisting as below~~ is necessary

1. Professor
2. Asst Professor
3. Lecturer
4. Demonstrator
5 & 6. House Surgeons (two in number).

4) The House Surgeons should be appointed as full time men & made to work for not less than two to three years.

2) Submd for orders. A copy of the note may thereafter be sent to the Edn Branch. (University Section)

Certain improvements to the Eye Section of the Krishnarajendra Hospital, Mysore

File No. [illegible] of 193 [illegible]

General and Revenue Secretariat

From the Senior Surgeon
Letter No GC 241-1 dated 5.4.1938 forwards makes certain remarks and submits proposals.

10) Subd for orders, with refce to para 4 supra.

A comparative statement embodying the proposals made by Mr B.R. Narayana Rao and the Sr Surgeon is put up— Flag N.

Ksm 12/4-38 11) The proposals of Mr P.R. Subba Rao for improving the eye section of the K.R. Hospital, & the remarks of ~~Asst Supt~~ the Supt M.O. Hospital & the Senior Surgeon are noted together in Flag N.

12) The S.S agrees in regard to the necessity of having additional staff proposed except in the case of having separate trained pathologist of the eye also. But the Supt ~~Asst~~ Mirza Ophthalmic Hospital recommends that this addition is necessary. Subd for orders

Ley 19/4

13) The proposals of Dr P.R. Subba Rao are towards the Constitution of the Ophthalmic Dept. as a Self-contained unit, ~~and~~ ~~a proposal as~~ a principle which

Certain improvements to the Eye Section of the Kasturbagandhi Hospital

Serial No.

is generally agreed to.

Ophthalmic work.

14) As ~~agreed~~ regards the other proposals, both Dr. P.R. Subba Rao and Dr. P.K. Narayana Rao are in favour of having a separate Pathological Section for the Eye work.

One specially trained medical man or a technician trained in pathology is very essential. While agreeing that ~~a separate hand~~ one trained hand should deal exclusively with ~~for~~ this work, the Senior Surgeon does not consider the constitution of a separate Dept. necessary for pathological work of the Eye Section.

This may meet the requirements in ophthalmic dept.

He thinks a subordinate of the Ophthalmic Section may be deputed to deal exclusively with this work in the general Pathology Block under the guidance of the Professor of Pathology. The Senior Surgeon's proposal has the advantage of avoiding the Cost incidental to the equipment of a separate Laboratory (& attendants etc) for this. Whether ~~a new~~ an additional man will be required for this, or one from existing establishment of the Eye Dept can be spared, depends upon the quantity of work.

NOTE—Contn. Sheet.

WD 0284—GPB—30,000—18-3-37

Certain improvements in the Eye Section of the Rajendra Hospital

File No. of 193 . General and Revenue Secretariat

15) Dr. P.R. Subba Rao suggests the following staff :- Additional Staff

A Professor
An Asst. Professor
A Lecturer } — one of these to be entrusted with pathological work
A Demonstrator }
(2 House Surgeons)

The Sr Surgeon also wants more - each unit should have a Professor, an Asst Professor & a Lecturer. The Lecturer may attend to pathological work also

Dr. B.K. Narayana Rao appears to think that ~~of~~ a Specially qualified permanent Assistant is very necessary (as the Eye-Dept is now a one-man show) Apparently he does not think that ~~the other staff is~~ lecturer & demonstrator to be ~~are~~ necessary immediately. It is for Consideration whether ~~in addition~~ one of the Asst Surgeons on the staff of the K.R.S. Hospital cannot be spared ~~to serve~~ whole-time for Ophthalmic work.

16) Re: House Surgeons both the Eye Specialists say that the present system ~~will be~~ is not satisfactory and persons ~~who~~ who will be resident in Hospitals are necessary. The Senior Surgeon, however, doubts if persons willing to serve on this basis for a long period of 2 yrs can be found as under present conditions there is not much scope for ~~their getting~~ their eventually getting private practice as Eye-Specialists

36) Draft G.O is put up.
Financial concurrence is necessary
This is perhaps ~~a~~ ~~commit~~ "Schemic" matter. (Refer para 33)
to
16/6/38,

37) According to the proposals of the University the additional staff to be given is only —
(i) An ex-officio Asst Professor on an allowance of Rs 50 p.m
(ii) A whole-time Demonstrator on Rs 100-10-150 for pathology Asst.

38) Re: (i), the University want an Asst Surgeon (whose pay is met by the Medical Dept.) to be appd Asst Professor. Unless the cadre of Asst. Surgeons in the Hospital is to be increased by one on this account, there is no extra cost to the Medical Dept. involved in the proposals. The necessary sanction for the proposals may perhaps be appropriately communicated by the University Section as the expre is debitable to University.

~~If it may be necessary to~~

[If an extra Asst. Surgeon (for solely for Ophthalmic work in the Hospital is to be given from Med. Budget, a G.O. may issue from Med Secy. Sec. to this Dept]

48) The proposals, as per draft order, are to sanction the following extra establishment for the Ophthalmic Section of the Sri Krishnarajendra Hospital

(1) Third Class Assistant Surgeon on 80-10-120,

(2) Allowance of Rs. 50/- to an Assistant Surgeon for teaching work in the Medical College,

(3) Demonstrator for the Medical College on 100-10-150

49) The total involves an extra recurring expenditure of Rs. 3,448/- per annum. The expenditure of the University and the Medical Department has increased considerably in the last three years and further increase, particularly under recurring expenditure, is not desirable. Corresponding savings in other items of recurring expenditure have also not been pointed out as required in Circular dated 25-7-38. There is also no provision for these establishments in the current year's budget, and specific source for meeting the cost has not been pointed out. The proposal is therefore not financially acceptable.

50) The Senior Surgeon thinks that a separate officer for the pathological section is not necessary. He also suggests that the posting of two House Surgeons for the Ophthalmic Section, may be tried as an experimental measure. This suggestion may kindly be accepted. The question of crediting to Government the fees from refraction cases to meet the pay of extra staff may also be considered.

76) Retransmitted with compliments:-

A) Eye Department of the Krishnarajendra Hospital requires strengthening by a whole-time Assistant Surgeon who may be ex-officio Assistant Professor and a whole-time Demonstrator from the University.

B) The Housesurgeons mentioned are merely

Serial No.

merely post-graduate students and should by turns be posted to the Eye Department as to other departments. They come to learn and not to teach and their assistance at work is very little. They do not stay long and should not stay long but give place to others.

C) Mr. M.B.Sundara Rao is a young officer (Assistant Surgeon 3rd class) who recently returned from London after passing the D.O.M.S. He will suit for the post of additional Assistant Surgeon cum Assistant Professor proposed. At present he is occupying one of the sanctioned posts of Assistant Surgeons in the Minto Hospital. He is not an extra hand there.

D) Just at present, the Minto Ophthalmic Hospital is short of one Assistant Surgeon after the transfer of Mr. Sundaresan to Shimoga as a suitable hand was not available to be posted. If Mr. Sundara Rao is immediately transferred, there will be shortage of 2-out-of-3-Assistant-Surgeons-and-work-will-seriously suffer.

(77) So, if an additional hand has to be given to the Eye Department of the Krishnarajendra Hospital, an additional hand has to be sanctioned to the medical cadre and immediately this is done, suitable adjustments will be made and Mr. Sundara Rao allowed to join the Krishnarajendra Hospital by 10th January 1939.

(78) It would be very valuable if sanction is accorded very early as it will take about 6 weeks to recruit a hand through the Central Recruitment Board and the

the Academic Session in the Medical College will commence from about the 10th of January next. / A

79) As regards the extra cost, I may note that the additional hand required is one 3rd class Assistant Surgeon on Rs 80-10-120 as in the case of Minto Hospital (Vide G.O. No. Fg. 9876-7 | Med 209-37-6 dated 14-6-1938) and the cost in respect of this additional appointment will have to be sanctioned as an additional grant for the current year as no source is available from any of the sanctioned grants. Necessary provision will be made in the next year's budget and thereafter after sanction is received.

24-11-1938 B. Ramanarayana Rao 24/11 Senior Surgeon.

(Refer para 73-B.)

80) If approved, the University Section/Edn Branch, will now be consulted / A in regard to the transfer of Dr Sundara Rao to Mysore immediately. The S.S says that if an additional hand is given to the KR Hospital by posting Mr. Sundara Rao, an extra hand has to be sanctioned for the Medical dept on 80-10- & additional grant sanctioned for this purpose during the current year necessary provision being made in the Medical budget.

NOTE—Contn. Sheet.

WD 0544—GPB—30,000—2-9-83

Submitted to His Highness.

I submit herewith a Final Note by the Second Member of Council on the subject of the proposal to sanction an additional officer of the grade of Assistant Surgeon, third class, for work in the Eye Department of Krishnarajendra Hospital, Mysore, the cadre of Assistant Surgeons, third class, being increased by one, for His Highness's gracious sanction.

Mirza M. Ismail

Bangalore,)
23rd December 1938.) DEWAN.

Final Note by the Second Member of Council.

Subject.— Proposal to sanction an additional officer of the grade of Assistant Surgeon, third class, for work in the Eye Department of Krishnarajendra Hospital, Mysore, the cadre of Assistant Surgeons, third class, being increased by one.

Mr. P.R. Subba Rao, Superintendent, Minto Ophthalmic Hospital, Bangalore, on his return after attending the International Ophthalmological Congress held at Cairo and visiting ophthalmic institutions in Cairo and in Europe, made certain suggestions for strengthening the ophthalmic section of the Krishnarajendra Hospital. The proposals were examined by the Senior Surgeon and the Mysore University and it is agreed that it is necessary to increase the staff so as to make this section a self contained unit. The University are agreeable to the appointment of an Assistant Surgeon, third class, in the Eye Department of the hospital, who will also be the Assistant Professor of Ophthalmology in the Medical College with an allowance of Rs.50/- per mensem, and of a Demonstrator in the grade Rs.100-10-150, who will attend to the pathological work of the hospital and the college. The pay of the Assistant Surgeon will be met by the Medical Department, the professorial allowance of Rs.50/- to the Assistant Surgeon and the entire salary of the Demonstrator being met by the University. Orders have been issued regarding the post of Demonstrator. I consider that it is necessary to appoint an additional Assistant Surgeon in the Medical Department as a part of the above scheme and the Dewan and the First Member of Council have agreed to this arrangement.

I solicit the gracious sanction of His Highness to the above proposal.

/t/ Ananta Tarapur

SECY. LOCAL SELF GOVT. OF MYSORE 21. FEB. 1938

Med-209-37-1

To

The Secretary to Govt.
Local Self Govt.Department, Bangalore.

Sir,

I have the honour to forward a note from Dr.P.R. Subba Rao,Ophthalmic Surgeon, which suggests certain needed improvements for the Eye Hospital which I hope can be given effect to.

I have the honour to be,
Sir,
Your mostobedient servant,

J F Robinson

Durbar Surgeon &
Medical Officer.

Sri Krishnarajendra Hospital,
Mysore

14th February 1938.

From

Dr.P.R.Subba Rao,BMS,LRCP & SE,DOMS,

Ophthalmic Surgeon,

Krishnarajendra Hospttal, Mysore.

To

The Durbar Surgeon & Medical Officer,

Krishnarajendra Hospital,

Mysore.

S i r,

I have the honour to state that I am extremely grateful to the Government of His Highness the Maharaja of Mysore for giving me an opportunity to attend the International Ophthalmological Congress held at Cairo and to visit the various premier Ophthalmic Hospitals in Cairo Paris, London, Brussels, Berlin, Prague, Vienna, Budapest and Rome. After visiting these hospitals I feel it my bounden duty to submit a brief report with a few observations for favourable consideration of the Government.

All the Hospitals I visited have an aboolute and separate entity independent of the other departments of Medicine. They are equipped and staffed fully; each hoppital has a pathological department and a bacteriological department, a biochemistry department and an X-Ray department separately attached to it with full facilities for research work. The work allotted to

each member of the staff is such as to give him an opportunity to direct his attention towards original work.

I beg to submit that the material in our hospitals in the State is far more in number and in no way inferior in quality to that in the hospitals throughout Europe. And I further venture to state that the specialists in our State are in no way inferior to those in the hospitals in Europe. But the opportunities given to us in the form of staff and equipment are inadequate.

With the above observations in view, I beg to make a few proposals for the urgent and favourable consideration of the Government with a view to raise our hospitals to the level of similar institutions on the continent. I feel it is essential that the proposals be given effect to, specially in Mysore, in view of the fact that this hospital is part of the University Medical College and thus it is a teaching institution.

The first immediate requirement is the completion of the building with a pathological department separately attached to it with the necessary nursing and menial staff. As regards the X-Ray department, the Ophthalmic department being in the same premises as the general hospital, the common X-Ray department is enough. The Chemistry department of the college will be helpful to carry on the biochemistry work.

The nature of the work ~~in the work~~ done in the Pathology department of the eye being entirely different from

that in the General Pathology Department, I feel that a separate medical man trained in pathological work of the eye or a technician trained in pathology of the eye is very essential. It is only when a separate department of Pathology and bacteriology is attached to the eye hospital that a routine and thorough systematic examination of all the cases can be carried out and this will be of immense help for making original observations and to contribute original papers.

Regarding the staff, I submit, to cope with the work we have got in the hospital, the following staff is immediately necessary.

A Professor
An Assistant Professor
A Lecturer
A Demonstrator and
Two House Surgeons.

Either the lecturer or the demonstrator will be trained in the pathological work of the eye and will be placed entirely in charge of the pathological and bacteriological laboratory. At present L.M.P.'s are posted to work in the special department for short periods. They cannot wholeheartedly apply themselves to this work as they have not got much inducement in the form of Private Practice or promotions. Besides they are being shifted on frequently; they cannot learn work and be of any use to the department under such conditions. Therefore, I suggest that the system which is prevailing throughout Europe and also in the 27 Ophthalmic Hospitals in Egypt may be adopted. If these proposals are favourably considered, work in our hospitals will be efficient.

Two house surgeons who are willing to learn eye work with a view to specialise in the subject later on can be

appointed as full time men. They should remain in the hospital premises always and should be in charge of the Wards, attending on the patients, maintain case sheets regularly and attend to the emergent cases at any time of the day or night. They will be trained to do the minor operations also and to learn refraction work during their spare hours. This method will give them plenty of opportunities for learning eye work fully and to qualify themselves as specialists later on. To enable them to do this, it is necessary that the House Surgeons should undertake to work in the department for not less than two to three years. If the above proposals are given effect to, Sir, I assure you that the efficiency of the special department can be improved considerably and brought up to the same standard as any other special hospitals in the world.

I, therefore, request you, Sir, to submit these proposals of mine with your strong support to the University as well as to the Government for their favourable consideration and compliance.

I have the honour to be,
Sir,
Your most obedient servant,

P. R. Subba Rao

Ophthalmic Surgeon and
Professor of Ophthalmology.

From

Dr.P.R.Subba Rao, B.M.S.,L.R.C.P.,& S.E., D.O.M.S.,
Ophthalmic Surgeon,
Krishnarajendra Hospital, Mysore.

To

The Durbar Surgeon & Medical Officer,
Krishnarajendra Hospital, Mysore.

S i r,

I have the honour to state that I am extremely grateful to the Government of His Highness the Maharaja of Mysore for giving me an opportunity to attend the International Ophthalmological Congress held at Cairo and to visit the various premier Ophthalmic Hospitals in Cairo, Paris, London, Brussels Berlin, Prague, Vienna, Budapest and Rome. After visiting these hospitals, I feel it my bounden duty to submit a brief report with a few observations for favourable consideration of the Government.

All the hospitals I visited have an absolute and separate entity independent of the other departments of Medicine. They are equipped and staffed fully; each hospital has a pathological department and a bacteriological department, a bidochemistry department and an X-Ray department separately attached to it with full facilities for research work. The work allotted to each member of the staff is such as to give him him an opportunity to direct his attention towards original work.

I beg to submit that the material in our hospitals in the State is far more in number and in no way inferior in quality to that in the hospitals throughout Europe. And I further venture to state that the specialists in our State are in nox way inferior to those in hospitals in Europe. But the opportunities given to us in the form of staff and equipement are inadequate.

With the above observations in view, I beg to make a few proposals for the urgent and favourable consideration of the Government with a view to raise our hospitals to the level of similar institutions on the continent. I feel it is essential that the proposals be given effect to, specially in Mysore, in view of the fact that this hospital is part of the University Medical College and thus it is a teaching institution.

The first immediate requirement is the completion of the building with a pathological department separately attached to it with necessary nursing and menial staff. As regards the X-Ray Department, the Ophthalmic department being in the same premises as the general hospital, the common X-Ray department is enough. The Chemistry department of the college will be helpful to carry on the biochemistry work.

The nature of the work doen in the Pathology department of the eye being entirely different from that in the General Pathology Department, I feel that a separate medical man trained in pathological work of the eye or a technician trained in pathology of the eye is very essential. It is only when a separate department of Pathology and bacteriology is attached to the eye hospital xx that a routine and thorough systematic examination of all the cases can be carried out and this will be of immense help for making original observations and to contribute original papers.

Regarding the staff, I submit, to cope with the work we have got in the hospital, the following staff is immediately necessary.

A Professor
An Assistant Professor
A Lecturer

They will be o the minor operations also and to learn refreaction r spare hours. This method will give them ties for learning eye work fully and to quali- lists later on. To enable them to do the House Surgeons should underta ot less than two to three ye ffect to, Sir. I assure

that the efficiency of the special department can be improved considerably and brought up to the samestandard as any other special hospitals in the world.

I, therefore, request you, Sir, to submit these proposals of mine with your strong support to the University as well as to the Government for their favourable consideration and compliance.

I have the honour to be,
Sir,
Your most obedient servant,

Sd/- P.R.Subba Rao.

OPhthalmic Surgeon and
Professor of Ophthalmology.

No.

Enclosure No.

Sir.,

With reference to your No. G.7550-1 Med. 209-37-2 dated 17th March 1938, for-warding a copy of a note by Dr. P.R. Subba Rao, for remarks, I have the honour to state the following.

(1) A pathalogical annexe to the Eye Department is very necessary. A specially trained hand might be posted to it and all special pathological investigations requiring familiarity with eye diseases will be done there. More detailed pathological investigations of body conditions (which are also often required) will be done in the new pathological institute attached to the Krishnarajendra-Hospital.

(2) Regarding staff, the eye department in the Krishnarajendra-Hospital is a one-man show and cannot therefore be uniformly satisfactory. A specially qualified permanent assistant is very necessary.

(3) The present system of allowing House Surgeons to be anything else but "House" Surgeons is unsatisfactory. They will have to be resident in Hospitals, like what obtains in any big Hospital anywhere else, Like

P.T.O.

Like in other places, they may be attached to ~~xxxxxx~~ Special Departments also.

I have the honour to be

Sir,

Your most obedient servant.

GOVT. OF MYSORE

From

SASTRAVAIDYA PRAVINA
S. SUBBA RAO, ESQ., B.A., M.B.C.M., M.R.C.S. (Eng.), L.R.C.P. & P.E.H.,
Senior Surgeon with the Government of H. H. the Maharaja of Mysore.

To

The Secretary to the Government of Mysore,
Local Self Government Department, Bangalore.

Sir,

With reference to your letter No.C.7550-1/Med.209-37-2 dated the 17th March 1938, regarding the improvements suggested by Mr.P.R. Subba Rao in the Eye Department of the Krishnarajendra Hospital, Mysore, I have the honour to state that I quite agree with Mr.Subba Rao about the urgent necessity for the completion of the existing building to form a separate Ophthalmic Department, and the appointment of a separate nursing and menial staff for the same. The X-Ray Department of the Krishnarajendra Hospital will serve the needs of this section also. But I do not see eye to eye with the suggestion of a separate Pathology Department for this branch in view of the fact that pathological, bacteriological and biochemical investigations can be advantageously conducted without any extra cost in the new Pathology Block which is under construction as an adjunct to the Krishnarajendra Hospital, Mysore. One of the subordinates from the Ophthalmic Section may be deputed to be exclusively in charge of the ophthalmic work in the Laboratory, and to carry on original work under the guidance of the Professor of Opthalmology.

As regards the staff, I would invite kind reference to para 3 of my letter No.G.C.197-1 dated the 12th February 1938 forwarding my opinion on Lt.Col.Burke's suggestions wherein I have suggested the division of the Hospital into distinct self-contained units with a staff of a Professor, an Assistant Professor and a Lecturer. The same proposals hold good in the case of the Ophthalmic Section also. Two House-Surgeons, willing to learn eye work may be appointed for this section, but it is doubtful whether they would like to work for such a long time, as two years, considering the fact that Mysore, with the

the existing system of free treatment in Government Hospitals, does not provide any venue for private practice as Eye-Specialists. Any way, the system may be tried in the Krishnrajendra Hospital, Mysore, as an experimental measure.

I have the honour to be,

Sir,

Your most obedient servant,

S. Subba Rao

Senior Surgeon.

Krishnarajendra Hospital, Mysore.

To The Secretary to Government of His Highness
the Maharaja of Mysore,
Local Self Government Department,
B a n g a l o r e.

Sir,

I have the honour to enclose the copy of a letter sent to the Senior Surgeon in Mysore, Bangalore. As pointed out we are very under staffed in the Ophthalmic Department. This department is turning out as much as half the amount of work as the Minto Ophthalmic hospital and there is only the Surgeon and Sub Assistant Surgeon in charge. On mornings when there are operations and both are engaged in the operation theatre there is no one to leave in the out patient dispensary. It is most essential and urgent that one more responsible person, at least, be appointed

early. There is a man Mr. Sundar Rao, who is in the Minto Ophthalmic Hospital who has just returned from England with a Diploma in Ophthalmology. He is one of our Medical College graduates and we should like him to be appointed to this post. With his special qualifications he would also be useful in instructing the students.

I trust you will present this urgent need to Government and obtain their early sanction for this appointment which I believe the Senior Surgeon would recommend if Government is willing to order the same.

I have the honour to be.
Sir,
Your most obedient servant,

J. Robinson

DURBAR SURGEON & MEDICAL OFFICER.

Durbar Surgeon and Medical Officer,
Krishnarajendra Hospital, Mysore.

~~MX~~

Dear Dr. Narayana Rao,

In our hurried conversation the other day I forgot one matter regarding the Eye Department.

Mr. S.Balaji Rao has put in an application for some allowance. He virtually does the work of an R.M.O., living on the grounds and is on call at all hours for emergency work. In view of the fact that there are 60 eye patients and many out patients making our strength in the matter of patients about half of that of the Minto Ophthalmic Ho pital and that there is a good deal of work for only a surgeon and sub assistant surgeon for half the number of patients when there are about ten on the staff at the Minto Ophthalmic Hospital

it would seem reasonable that some compensatary balance be struck. In case of the illness or absence of the opnthalmic Surgeon we have no one of higher rank than Mr. Balaji Rao to attend to the duties and we ought to have a well qualified person for this. There is a recently returned graduate of our college Mr. Sunder Rao, who has obtained the D.O. in London. He happened to come here the other day and in conversation with him I learn that he would be willing to come here if appointed to the Eye Department. Could you arrange to have him sent here?

Kindly give your consideration to these matters and, I hope, your final favourable action on these.

Yours sincerely,

Sd/ J.F.Robinson.

PROCEEDINGS OF THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE.

-----:O:-----

Letter No. 2644 dated the 19th February 1938 from the Durbar Surgeon and Medical Officer, ~~Sri~~ Krishnarajendra Hospital, Mysore forwarding a note of Mr. P.R. Subba Rao, Surgeon, ~~Sri~~ Krishnarajendra Hospital, Mysore suggesting certain improvements required for the Eye-Department of the ~~Sri~~ Krishnarajendra Hospital, Mysore.

2. Letter No. 741 dated the 23rd May 1938 from the Superintendent, Minto Ophthalmic Hospital, Bangalore, on the suggestions made by Mr. P.R. Subba Rao.

3. Correspondence ending with letter No. G.C. 241-1 dated the 5th April 1938 from the Senior Surgeon in Mysore with his opinion on the suggestions.

4. Unofficial Note No. 22788 dated the 2nd June 1938 from the Registrar, Mysore University, furnishing the views of the University.

5. Un-official Note No. G.C. 241-8 dated the 24th November 1938 from the Senior Surgeon in Mysore regarding the proposal to transfer Mr. B. Sundara Rao to ~~Sri~~ Krishnarajendra Hospital, Mysore.

*****

Order No. G.658/-4

Dated, Bangalore, 6.1.39.

Mr. P.R. Subba Rao, Superintendent,

Superintendent, Minto Ophthalmic Hospital, Bangalore, ~~as~~ while he was Surgeon, ~~Sri~~ Krishnarajendra Hospital, Mysore, attended the International Ophthalmological Congress held at Cairo and visited ~~several~~ Ophthalmic Hospitals in Cairo and several places in Europe. ~~He has~~ and made certain suggestions for the improvement of the ~~Eye~~ Ophthalmic Section of the ~~Sri~~ Krishnarajendra Hospital. His proposals aim at the constitution of the Opthalmic Section as a self contained unit with adequate staff to cope satisfactorily with the work of the Ophthalmic Department in the ~~Sri~~ Krishnarajendra Hospital as well as the work of the medical college ~~in the University. He recommends also~~ a establishment of a separate pathological section for dealing with eye work.

The Eye Department in the ~~Sri~~ Krishnarajendra Hospital is now in charge of a single officer, who is also Professor of Ophthalmology in the University. ~~Both~~ the Superintendent, Minto Ophthalmic Hospital and the Senior Surgeon are both of opinion that some strengthening of the staff of the Eye Department in the Hospital and the teaching of the University is necessary, and the University has agreed to the undermentioned additional appointments being made immediately:-

(1) An Assistant Surgeon who will also get an allowance of Rs. 50/- per mensem for attending to the University work, as Assistant Professor of Ophthalmology, ~~and~~

~~and~~ (2) A whole time Demonstrator on a pay of Rs. 100-10-150, who will also be Pathological Assistant to the Professor of ~~Ophthal-~~

Ophthalmology.

3. After taking into consideration the proposals made by Mr.P. R. Subba Rao, and the views of the other officers consulted, Government are pleased to sanction the appointment of an Additional Officer of the grade of Assistant Surgeon for work in the Eye Department of the Krishnarajendra Hospital, the cadre of Assistant Surgeons, Third class, being increased by one on this account. He will also be Assistant Professor of Ophthalmology in the Medical College with an allowance of Rs. 50/- for the work.

4. Orders ~~will~~ have issued separately regarding the appointment of a Demonstrator on a pay of Rs.100-10-150 by the University for the Ophthalmic Section. This officer will be duly trained and required to attend to the pathological work of the Eye Department of the Hospital and the College. He will, for the present, be permitted to carry on the work in the Hospital Laboratory.

5. The pay of the additional Assistant Surgeon sanctioned above will be debited to the Medical Department, while the allowance of Rs. 50/- for duties as Assistant Professor, as also the entire salary of the Demonstrator will be met by the University.

6. Half the fees realised in refrac-

refraction cases should be credited to Government to meet part of the pay of the Assistant Surgeon referred to in para 3 above.
